MUHAMMAD RADIEK FIDIYANTO

Jakarta | 085156057722 | radikfidi20@gmail.com | LinkedIn | Portfolio

Information Systems graduate (GPA 3.78/4.00, Cumlaude) pursuing a career as a Software Developer, with hands on full stack experience from backend systems in Go, PHP and Typescript to frontend interfaces in Next.js and React. This experience comes from a Web Developer Intern at Dinas Pendidikan Provinsi DKI Jakarta and multiple freelance projects, delivering production systems for real clients.

Work Experience

Pusat Data dan Informasi Dinas Pendidikan DKI Jakarta

Web Developer Internship — Aug 2025 – Jan 2026

- Built and maintained backend systems for the Jakedu platform using Go and PostgreSQL, managing core education data for Dinas Pendidikan Provinsi DKI Jakarta.
- Improved system performance by reducing API response time by approximately 15%, while resolving 10–15 bugs identified through log analysis and debugging.
- Used Postman for API testing and documentation, and independently deployed the Master Data module to production.

Projects

Jakedu | **Go**

Backend Developer — Sept 2025 – Nov 2025

- Built a centralized Master Data module (Users, Applications, Roles) on the admin dashboard using Role Based Access Control (RBAC), letting admins manage access across multiple systems (Selaras, KKI, Dapodik) without manual database queries.
- Designed the PostgreSQL relational schema connecting Users, Applications, and Roles, replacing a process that previously relied on manual database queries via DBeaver.

Nibiru | **PHP**

Backend Developer — Mar 2026 – May 2026

- Built both the user facing storefront and admin panel for an e-commerce platform selling merchandise and digital literary works, using Laravel and PostgreSQL
- Integrated Xendit for payment processing and Biteship for shipping logistics to support order fulfillment.

Figtries Website | **Typescript**

Full Stack Developer — Aug 2026 – Sept 2026

- Developed full stack features, including frontend interfaces and PostgreSQL database integration, for a software house and agency platform.
- Improved website visibility and user experience through on page SEO and a fully responsive design.

Education

Universitas Pembangunan Nasional "Veteran" Jakarta

Information System — 2023 – 2026

GPA: 3.78/4.00

Certification

21st Century Employability Skills Program – Advanced
Wadhwani Foundation 2024
